STATUS INQUIRY

OR

**IN THE ALTERNATIVE
A PETITION TO WITHDRAW HOLDING OF ABANDONMENT UNDER 37
CFR 1.181(a)**

The Assistant Commissioner of Patents
Washington, DC 20231

Dear Sir:

This is a Status Inquiry as to the current status of this patent application. In the alternative, it is a Petition to Withdraw Holding of Abandonment Under 37 CFR 1.181(a).

REMARKS

The facts of this application are convoluted, and applicant thanks the Examiner in advance for the patience required to dig through these facts.

This application is not viewable on PAIR, so applicant requests a current status of the application, and in the alternative, it is a Petition to Withdraw Holding of Abandonment Under 37 CFR 1.181(a).

Quick Summary

In response to the 10/07/03 Notice, applicant

- (1) timely submitted a response to the notice;
- (2) submitted it a second time upon telephone inquiry by the Examiner and issuance of a Notice of Abandonment; and
- (3) submitted it a third time upon telephone inquiry by the Examiner.

In short, timely response was made, and copies were twice provided in response to the Notice of Abandonment and inquiries by the Examiner.

Timeline of Events

- 10/07/03 Notice of Non-Compliance With One Month Period for Response.
- 11/07/03 Timely Response was facsimile filed (see Exhibit A, Response; Exhibit B, Attorneys Fax generated confirmation; and Exhibit C, USPTO Auto Reply Receipt).
- 07/14/04 Examiner Cross kindly telephoned attorney Gilbreth and said a Response was not received and that the application appeared to be abandoned.
- 07/16/04 Notice of Abandonment.
- 07/19/04 A copy of the 11/07/03 Response was facsimile filed, along with proof of facsimile filing (See Exhibit D, Response to 7/14 phone call; Exhibit E, fax generated confirmation; Exhibit F, USPTO auto reply).
- 01/04/05 Examiner Cross again informs attorney Gilbreth that the Response has not been received.
- 01/06/05 Copy of the 11/07/03 Response, Copy of the 07/09/04 Response, along with proof of facsimile filing for both responses, were filed (See Exhibit G, Fax Cover Sheet listing Exhibits; Exhibit H, generated fax confirmation).

In view of the above arguments, prompt allowance of all pending claims is respectfully requested.

If it would be of assistance in resolving any issues in this application, the Examiner is kindly invited to contact applicants' attorney Mark Gilbreth at 713/227-1200.

Respectfully submitted,

Date: December 10, 2007

Dear Sir:

Responsive to the Notification of Non-Compliance with the Requirements of 37 CFR 1.192(c) of October 7, 2003, correct copies of claims 4 and 6 are respectfully submitted. Additionally, Section II of the Appeal Brief is updated to reflect decisions on 09/296,216 and 09/307,544.

REMARKS

Correct Copy Of Claims 4 and 6:

The Notification is requiring submission of the correct copy of claims 4 and 6.

It appears that claims 4 and 6 as listed in the Appeal Brief lacked amendments filed December 14, 1999, in response to the Office action of July 21, 1999. The following copy of claims 4 and 6 reflect that amendment.

4. The additive of claim 3 wherein the hydrophobic fibers comprise at least one selected from the group of hydrophobic fibers consisting of nylon, rayon, and hydrocarbon fibers, and wherein the hydrophilic fibers comprise at least one selected from the group of hydrophilic fibers consisting of glass, cellulose, carbon, silicon, graphite, calcined petroleum coke, and cotton fibers.

6. The additive of claim 5 wherein the reinforcing material comprises at least one comminuted material selected from the group of comminuted plant materials consisting of nut and seed shells or hulls of almond, brazil, cocoa bean, coconut, cotton, flax, grass, linseed, maize, millet, oat, peach, peanut, rice, rye, soybean, sunflower, walnut, and wheat; rice tips; rice straw; rice bran; crude pectate pulp; peat moss fibers; flax; cotton; cotton linters; wool; sugar cane; paper; bagasse; bamboo; corn stalks; sawdust; wood; bark; straw; cork; dehydrated vegetable matter; whole ground corn cobs; corn cob light density pith core; corn cob ground woody ring portion; corn cob chaff portion; cotton seed stems; flax stems; wheat stems; sunflower seed stems; soybean stems; maize stems; rye grass stems; millet stems; and mixtures thereof.

UPDATE OF SECTION II OF THE APPEAL BRIEF

BOARD DECISION ON COPENDING S/N 09/307,544

As an update, applicant wishes to direct attention to Board Decision dated July 17, 2003 for Application S/N 09/307,544 (Appeal No. 2003-0604) in which very similar claims (well plug additive comprising a dry mixture of polymer/crosslinking agent/reinforcing material, and method of making) were rejected under 35 USC 103 over the same art of record (Horner et al., Githens, Sydansk, House et al., and Merrill).

The Board stated that the common issue of the 103 rejections, "is whether the examiner has provided a proper factual foundation supporting her conclusion that one of ordinary skill in the art would have expected that the addition of inert solids (for example, sand), before activation with water, rather than after activation with water, would provide no substantial difference in results."

After finding a "lack of factual foundation," the Board reversed the 103 rejections.

BOARD DECISION ON COPENDING S/N 09/296,216

As another update, applicant further respectfully directs attention to Board Decision dated September 15, 2003 for Application S/N 09/296,216 (Appeal No. 2003-0515) in which very similar claims for a conformance additive were rejected under 35 USC 103 over the same art of record (Horner et al., Githens, Sydansk, House et al., and Merrill). In that Decision, the Board adopted the July 17, 2003 Board Decision, and again reversed the 103 rejections.

If it would be of assistance in resolving any issues in this application, the Examiner is kindly invited to contact applicants' attorney Mark Gilbreth at (713) 667-1200.

Respectfully submitted,
